

EVOLVE SERIES® CONDITIONERS

Evolve®

BETTER SCIENCE. BRILLIANT WATER.®

BETTER SOLUTIONS FOR BETTER WATER.

High quality water is an essential part of your health. Which means it should be clean and clear. And whether your water is supplied by the city or a private well, your water problems might include:

- Iron causing rust stains and build-up
- Acidic water leaving blue and green stains and corrosion damage
- Hardness creating deposits and scale
- Foul odor and taste from various minerals and chlorine

That's why Evolve® conditioners combine cutting-edge technology and know-how to provide the cleanest, highly efficient water for your home. As your professional Evolve Series dealer, we can help you pinpoint your specific water problems and configure the system that's perfect for your family's needs.

EVOLVE SERIES CONDITIONERS. ONE UNIT. ONE SOLUTION.

From elevated levels of iron and manganese to hard water, Evolve conditioners bring cutting-edge water treatment into your home. These conditioners can also correct mildly acidic water conditions and help preserve your home's plumbing and fixtures.

Evolve conditioners combine exclusive Crystal-Right™ media with a self-monitoring, deep cleaning system. The revolutionary media acts as an exceptional filter, while chlorine disinfects the media with each regeneration, eliminating unwanted tastes and odors.

All of these features provide the brilliant water only science could produce.

THE CRYSTAL-RIGHT™ MEDIA ADVANTAGE.

Unlike normal softening resin, these silica-based crystals effectively filter problem minerals and iron and sulfur bacteria while correcting acidic water conditions. Their tolerance for high levels of chlorine also makes them the ideal media for the patented disinfection system. Crystal-Right media does all of this while efficiently softening your water.

EVOLVE SERIES® CONDITIONERS: THE BEST DESIGN FOR BETTER WATER.

Every component, every feature, every innovation of the Evolve Series Conditioners has been designed to bring the highest quality, most efficient water to you and your family.
